

Price Increase Announcement

June 30, 2008
ACF081410

To: All Cooper Lighting Customers

Due to continuing inflationary pressure in raw materials, packaging, and transportation costs, Cooper Lighting is announcing a general price increase for all lighting products in the range of 5 – 10% effective September 2, 2008.

All orders entered on or prior to August 31, 2008 and calling for immediate release will be honored at current prices. Orders entered on or after September 2, 2008 will be invoiced at the new prices as noted above.

Previously quoted projects will be honored as per the originally quoted terms and conditions. Effective September 2, 2008, all new quotations will be issued using the new prices.

Effective immediately, due to the continued market fluctuation, all new quotations for steel and aluminum poles will reflect the price increase.

Cooper Lighting will continue to develop and deliver innovative, cost effective lighting solutions to the marketplace. We value your business and thank you for your continued support of our portfolio of industry leading product lines.

Sincerely,
