

## MANUFACTURING TEAM LEADER

**Kenall, a leading manufacturer of advanced lighting solutions, has a great career opportunity for a Manufacturing Team Leader to direct the day-to-day activities of production (Metal Fabrication and Assembly) employees in adherence of the production schedule.**

Responsibilities for this position include:

- supervisory duties- develop, train, evaluate and motivate employees
- recommend improved methods, equipment, procedures and systems to increase efficiency and quality
- assign work activities for effective utilization of personnel to maintain workflow and achieve objectives.

The ideal candidate will possess a strong lean manufacturing and metal fabrication background. This position requires 3+ years related experience, a thorough knowledge of manufacturing, the ability to read blueprints to assure production is per specifications, and the ability/willingness to learn all aspects of our manufacturing operations. Must possess strong interpersonal and communication skills and a high level of self-initiative.

***Kenall is an established, financially stable organization with a proven track record of excellence. If you share our drive, professionalism and enthusiastic spirit and would like to be a part of a growing, progressive organization, please forward your resume to:***
