

Kenall, a leading manufacturer of advanced lighting solutions for specialized environments, has exceptional opportunities available at our headquarters in Gurnee, IL. Working together, Kenall has become a champion in manufacturing complex lighting solutions for healthcare, high-abuse, transportation, sealed enclosure and security detention environments. For nearly 50 years, Kenall has been a proud advocate for manufacturing in America. We are pleased to announce the following dynamic career opportunity:

APPLICATIONS ENGINEER

This product specialist for the Sales department responds to internal and field inquiries regarding technical aspects/applications of Kenall products and is the liaison between manufacturing and sales. Additionally, the Applications Engineer:

- responds to all field requests regarding photometric application of Kenall products
- fields all requests for special and international applications of Kenall products
- provides input to Marketing and New Product Development Departments regarding field developments and Kenall product applications, etc.

Kenall's Applications Engineer position requires a strong electrical background, BSME with 3+ years in a similar role (applications engineering, field support and/or technical pre-sales), plus proven experience in mechanical design. Lighting industry experience is preferred.

Kenall is an established, financially stable organization with a proven track record of excellence and great corporate culture. If you share our drive, professionalism and enthusiastic spirit and would like to be a part of a growing company, please forward your resume to:
