### **Stan Neese Joins Venture Lighting International as Southern Regional Sales Manager.**

**Solon, OH - September 7, 2011** – Venture Lighting International, a leading manufacturer of Metal Halide Lighting systems, recently announced that Stan Neese has joined the company as Southern Regional Sales Manager.

“Stan’s proven track record growing sales and in-depth knowledge on specifying and implementing lighting solutions that save energy, will bring us tremendous bench strength in the Southern region” says Ken Hawley. “Stan’s customer facing experiences and relationships throughout the southern region will bring a renewed presence to the Venture Brand and its products in the region”.

Stan is a graduate of the Georgia Institute of Technology and comes to Venture with over 20 years of industry and field experiences, holding positions with Sylvania Lighting, Philips, Universal Technologies and United Electrical Sales. During his career Stan has been a member of various industry associations including IES, BOMA, PRISM, NALMCO, and other professional organizations in the lighting industry.

“Venture Lighting continues to be the only dedicated industry leader in pulse start metal halide solutions, and we are fortunate to have Stan join our sales team. His education, career experience and presence in the lighting community will drive success to the Southern Region,” Hawley continued.

Stan Neese can be reached at: [stan\\_neese@adlt.com](mailto:stan_neese@adlt.com), 440-836-7627.
