PRESS RELEASE- For immediate release

July 27, 2015 - Niles, IL

On Friday, July 24, 2015, A.L.P. Lighting Components purchased selected assets of Reflek Manufacturing, Inc., a producer of high performance reflector and fabricated components for the lighting industry. This acquisition allows A.L.P. to add anodized reflectors and other downlighting components to its comprehensive product line.

A.L.P. will add spinning, hydroforming, painting and anodizing to its portfolio of products. The new products and services will be offered under the A.L.P. name.

A.L.P.'s latest acquisition reflects the organization's ongoing, service-driven commitment to invest for the future. By augmenting its product line and manufacturing capacity, A.L.P. can offer enhanced service to its customer base and continue its pattern of positive growth.

A.L.P. Lighting Components, Inc., is a leading global manufacturer of lighting components, offering a diverse line of products for lighting OEMs and the aftermarket. From LED to fluorescent and HID applications, A.L.P. offers the industry's most comprehensive line of lenses, vapor-proof enclosures, unwired fixture bodies, louvers and baffles, reflectors and extruded sheet products. A.L.P. is committed to creating value and performance with a wide range of products. Brands include Steel Craft fixture housings and LexaLite® precision injection molded refractors and reflectors. With manufacturing plants in the U.S., Mexico, and Europe, and distribution centers strategically located throughout the U.S., Europe, Latin America and South America, A.L.P. remains the industry's foremost supplier of feature differentiated products, processes and lighting innovations.
