PRESS RELEASE

Ligman Lighting USA launches online Animated Installation Videos

Ligman Lighting USA is proud to announce "On Line Voice Narrated Technical Animated Installation Video's" for outdoor luminaires. This technology allows our customer and clients the ability to download intuitive installation instructions to desktops, tablets / iPad's and smartphones.

Contractors & installers now have quick concise verification of factory recommended instructions to ensure easy installation, proper fixture performance and elimination of costly errors in the field.

Video's are grouped by product families to facilitate quick access. These animated videos can be found at www.ligmanusa.com at the bottom of the main page.

Ligman Lighting is an Industry leading manufacturer of high quality and affordable specification grade outdoor luminaires, and now provides additional support with a step by step narrated visual reference of installation procedures.

The Ligman Lighting North American operation is headquartered in Oregon and manufactures one of the largest portfolios of high performance products that include all outdoor architectural lighting requirements as well as RGB, Solar and Street Lighting.

Special thanks to "plan B production house" for the great animation.
